Zoom Marathon Challenge

Masai School

It is an 26 days marathon for improving communication.

PROJECTS

Recipe Management System

Designed a REST API for Recipe Applications, which provides all the basic functionalities for Online Recipe Management.

Features

- Security for authentication and authorization.
- Implements custom exception handling for all exceptions and validations.
- The API utilizes custom requests and responses.
- Integrated with any application that supports REST API

Tech-Stacks

Java | SpringBoot | Maven | Hibernet | JDBC | MySql

An individual project executed in 5 days.

Project Pulse

Streamline project portfolio management. Track progress, manage tasks, allocate resources, and collaborate seamlessly. Stay in control and ensure project success with Project Pulse.

Features:

- Securely manage access to the application with user authentication management.
- Create, update, and delete projects.
- Assign projects and track project details.
- Organize project tasks, assign resources, and monitor progress.
- Manage project resources, including availability and task assignments.

Tech-Stacks

Python| Flask| MongoDB | Html | CSS |JavaScript

An individual project executed in 4 days.
